

E&M TECHNOLOGIES, INC.

854 Woodmoor Acres Dr.
Monument, CO 80132

Job Title: Software Developer and Web Master Team Support

Location: Ft Meade, MD

Security Clearance: TS/SCI

E&M Technologies is currently seeking a **SOFTWARE DEVELOPER and WEB MASTER TEAM SUPPORT** to join our team in support of the INSCOM GIS Analytical Enterprise Support 902nd MI BDE Program

Responsibilities:

- Ensure products developed under this PWS are available in a timely manner to the greater U.S. Intelligence Community.
- Maintain a web presence that supports the diverse production of the various branches of the Army.
- Perform database design, implementation, and maintenance.
- Author software configuration documentation, user manuals, and provide one-on-one consultation to the branch chiefs and senior analysts.
- Update and maintain the classified intelligence website and associated systems; including: posting data, providing information and responding to documentation for activities such as Requests for Information (RFI), Requests for Assistance (RFAs) and Request for Products (RFPs) on a daily basis.
- Assist with monitoring the status of classified requests, such as Requests for Information (RFI), Requests for Assistance (RFAs) and Request for Products (RFPs), and provide weekly updates.
- Provides page design, development, and integration of information to web-based presentations for the Army's Secret Internet Protocol Router Network (SIPRNet) and Joint Worldwide Intelligence Communications System (JWICS) web sites.
- Conduct coordination with internal and external information technology service providers to help maintain and improve the sites:
 - Deliverable 4.105: Database Integrations
 - Deliverable 4.106: In Progress Reviews Conduction
 - Deliverable 4.107: Maintain Website Content and Post Updated/New Materials
 - Deliverable 4.108: Website Backups
 - Deliverable 4.109: Website Backup Testing for Serviceability
 - Deliverable 4.110: Surveys/Interviews

Position Requirements:

- Minimum two (2) years of web development experience
- Functional knowledge of the following skills: HTML, CSS, AJAX, & JavaScript/Query, C# programming, ASP.NET 4+ Web Forms Development, & MS SQL Server 2008+
- At least 5+ years with MS SQL Server
- At least 1 year of experience managing and developing SharePoint portals

E&M Technologies offers competitive salaries, medical benefits, and a 401k plan.
