Monument, CO 80132

Job Title: General Military Intelligence Analysis Support (RA III)

Location: Ft Meade, MD

Security Clearance: TS/SCI

E&M Technologies is currently seeking a **GENERAL SUPPORT ANALYST/INTEL ANALYST** to join our team in support of the INSCOM GIS Analytical Enterprise Support 902nd MI BDE Program

Responsibilities:

- The Contractor shall provide general military intelligence analysis and organizational expertise dealing with threats to the US Army/DoD interests worldwide
- Conduct all-source research and threat analysis of counterintelligence, counterterrorism, force protection, and information operations of foreign military forces and their operations, capabilities, activities and trends to support all-source intelligence and threat production, particularly in the areas of threats to US Army and DoD equities.
- Provide support to counterintelligence investigation through liaison with Counterintelligence Agents and other members of the DoD and intelligence community
- Provide record checks, data research and social networking analysis through the use of intelligence and law enforcement databases and search engines
- Provide in – depth research regarding biographical intelligence in order to aid investigations, support subject interviews, and case development
- Conduct research using social networking tools, digital mapping programs, and law enforcement database and research tools, to include Open Source (OSINT) and classified searches
- Analyze intelligence information to assess developments, trends, and threat implications through comprehensive knowledge of intelligence threat analysis to include forecasting and/or other analytical methodologies
- The contractor shall analyze terrorist and Foreign Intelligence Entity (FIE) threats to US Army Forces, programs and operations
- Provide recommendations on techniques and innovative methods employed in threat analysis and protection
- Research and analyze military, political, economic, technical and other developments within assigned areas to conduct valid threat assessments
- Identify intelligence gaps and assist in the development of intelligence collection programs
- Advise team leaders and chain of command on intelligence findings
- Plan, coordinate, and synthesize research to prepare all-source intelligence products and responses.
- Ensure products fulfill DA, DoD, and national – level intelligence requirements
- Brief intelligence assessments and positions to senior Battalion civilian and Army personnel
- Develop recommendations regarding the development and maintenance of Standard Operating Procedures for assigned tasks.
- Conduct all tasks in support of operations under AR 381-20
- The contractor shall assess information from the IC-wide reporting elements to de-conflict information, identify the value of reporting, assess whether the information addresses requirements and contribute to collection
