Job Title: Test Engineer
Location: Herndon, VA

E&M Technologies is seeking an experienced **TEST ENGINEER** to provide technical expertise in support of a mission critical Enterprise Identity & Access Management (IdAM) system. As a Test Engineer within an agile product team on the program, the successful candidate will provide testing support across the Systems Engineering, Development, and Operations teams.

Responsibilities:
- Perform user story acceptance testing during sprints
- Create test procedures for new capabilities and maintain/updates procedures for modification of existing functionality
- Understand and interpret system requirements to ensure procedures satisfy verification of the functionality
- Create regression testing procedures
- Conduct regression testing of all baseline capabilities
- Generate Requirements Verification Traceability Matrix (RVTM) for factory acceptance testing
- Execute test procedures in front of customer witnesses
- Perform O&S regression testing for minor releases
- Work closely with developers to resolve discrepancies found during testing
- Execute performance testing

Qualifications:
- Experience performing requirements analysis
- Experience with testing documentation (i.e. test plans and procedures)
- General knowledge of IdAM concepts and test methodologies
- Experience with SOAP UI recommended
- Experience with UNIX recommended
- Self-starter with an ability to work in a team environment and independently
- Strong written and verbal communication skills
- Experience with agile/scrum methodologies and processes

Additional Preferred Skills:
- Experience with Jira and Confluence
- Experience with Oracle IdAM products (OAM, OID, OIF, and OVD)
- Experience with performance testing software
- Experience with website testing
- Experience with automated testing
- Understanding of PKI certificates
- Good customer relation skills

Required Certifictions:
- Security+

E&M Technologies offers competitive salaries, medical benefits, and a 401k plan.

To Apply for this Position:

You must have the listed skills and experience in your resume to be selected for an interview. Send your resume to emtech@eandmtech.com

All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, marital status, national origin, age, veteran status, disability, or any other protected class. U.S. Citizenship is required.
