

E&M TECHNOLOGIES, INC.

854 Woodmoor Acres Dr.,
Monument, CO, 80132

Job title: Intelligence Support Counterintelligence Officer-MID

Location: Springfield, VA

Security clearance Required: TS/SCI; willing to take a CI Polygraph

E&M is actively seeking a INTELLIGENCE SUPPORT COUNTERINTELLIGENCE OFFICER – MID LEVEL in support of National Geospatial-Intelligence Agency (NGA) MOJAVE. NGA is responsible for providing the most advanced imagery and geospatial analysis and information to the U.S. Armed Forces and to America's global allies. NGA's mission is to provide timely, relevant, and accurate imagery, imagery intelligence, and geospatial information in support of national security objectives and humanitarian efforts.

The NGA Security and Installations Directorate (SI), Office of Counterintelligence (SIC), detects, deters and neutralizes espionage, foreign intelligence, and international terrorist activities directed against NGA; support national counterintelligence (CI) objectives as directed by the Director, National Counterintelligence and Security Center (NCSC) and Under Secretary of Defense for Intelligence (USDI); and facilitates and disseminates Geospatial Intelligence (GEOINT) products and services to the U.S. counterintelligence enterprise.

Responsibilities:

- Conduct defensive CI activities in support of the client mission.
- Conduct daily research to gather, assimilate, evaluate and interpret information concerning intelligence, terrorism and espionage threats against agency personnel, programs, technology and information systems and/or facilities.
- Provide daily CI analyses for distribution to selected parties within the DoD, and the Intelligence Community.
- Assimilate, evaluate and interpret all-source information from an operational security perspective.
- Publish finished intelligence with recommendations for mitigation and countermeasures, as appropriate.
- Detect and assess anomalous activities for links to possible foreign intelligence collection with recommended countermeasures.
- Immediately alert the client to imminent foreign intelligence, terrorism and espionage threats with recommended countermeasures.
- Provide analytical forecasts of foreign intelligence, terrorism and espionage threats as requested with recommended countermeasures.
- Provide CI assessments of proposed international agreements involving GEOINT sharing as requested.
- Provide annual CI threat analyses of foreign intelligence and terrorism threats to employees assigned to Contiguous United States (CONUS) and Outside Contiguous United States (OCONUS) locations.
- Apply knowledge and understanding of most of the applicable analytical tools to conduct CI analysis of anomalous activities.

E&M TECHNOLOGIES, INC.

854 Woodmoor Acres Dr.,
Monument, CO, 80132

- Liaise with DoD, the Intelligence Community, and appropriate law enforcement entities to remain abreast of current CI trends and issues.
- Conduct liaison with agency components to facilitate information sharing to support CI activities.
- Prepare briefs, as requested, for delivery to internal and external audiences at the strategic, operational and tactical levels.
- Conduct foreign contact and foreign travel briefings and debriefings and prepare applicable reports detailing the results and findings to include preparing Intelligence Information Reports.
- Provide CI advice and CI expertise in CI Risk Assessments in support of personnel security and the security clearance adjudication process.
- Provide CI technical expertise to support vulnerability mitigation efforts.
- Provide CI expertise in protecting emerging technologies and the intelligence acquisition process.
- Provide CI support to Research and Technology Protection (RTP) initiatives.
- Provide for the seamless integration of CI support to Supply Chain Risk Management (SCRM) policies and initiatives. Produce SCRM Assessment reports.
- Provide advice and expertise in support of CI operations and issues.
- Interview personnel and prepare accurate operational reports and summaries from those interviews.
- Apply knowledge, experience and understanding to process items in support of Special Access Programs (SAP).
- Apply knowledge and understanding of GEOINT needed to conduct CI damage assessments involving the loss or unauthorized disclosure of intelligence and the preparation of formal reports of findings and recommendations.
- Produce CI Notes and CI Minutes for Agency awareness as required.
- Work closely with members of the Intelligence Community to share information, collaborate, draft and finalize community information reviews/damage assessments.
- Conduct annual CI Inquiries.
- Process agency documents for public release.
- As appropriate, participate in agency and IC directed damage assessment task forces.

Skills and Experience Required:

- Must possess a minimum of 7 years of CI experience.
- Foundational defensive CI experience to include conducting investigations, inquiries, collections, operations, analysis, briefings, debriefings, training and awareness.
- Strong research, critical thinking and analytic skills. Strong written and oral communication skills.
- Must be credentialed graduates of an accredited federal or DoD CI training academy.
