

E&M TECHNOLOGIES, INC.

854 Woodmoor Acres Dr.,
Monument, CO, 80132

Job title: TSCM/Team Chief/Practitioner
Location: Springfield, VA & St. Louis, MO
Security clearance Required: TS/SCI

E&M is actively seeking a Technical Surveillance Countermeasure Team Chief in support of National Geospatial-Intelligence Agency (NGA) MOJAVE. NGA is responsible for providing the most advanced imagery and geospatial analysis and information to the U.S. Armed Forces and to America's global allies. NGA's mission is to provide timely, relevant, and accurate imagery, imagery intelligence, and geospatial information in support of national security objectives and humanitarian efforts.

Responsibilities:

- Be very familiar with current TSCM and CI policy.
- Provide recommendations and guidance for NGA facilities under construction.
- Analyze complex physical and technical security issues and provide cost-effective recommendations that meet policy requirements.
- Identify physical and acoustical security deficiencies and develop corrective actions to mitigate the identified deficiencies.
- Coordinate the actions of teams, projects, and/or initiatives that cover the entire spectrum of mission of Technical Operations Branch (SIC) and the TSCM mission to ensure they meet, and are consistent with, NGA's mission, vision, goals, values, and operational structure, and the organization, mission and goals of the national and DoD CI communities.
- Coordinate TSCM operations, to include internal and external correspondence, resource allocation, personnel management, inventory control system, training program and policy development (requires extensive coordination and liaison not only within NGA, but external to NGA as well with DoD, IC agencies, and the military services).
- Provide input on financial budgeting criteria and Program Objective Memorandum (POM) submissions, including funding for projects necessary to further the research and development of technical requirements to ensure technological advantage is maintained.
- Conduct TSCM operations consistent with National and DoD policies governing the employment of TSCM tactics, techniques, and procedures.
- Prepare specialized technical risk assessment products, TSCM reports of inquiry, after action reports, tailored briefings, and other administrative communication necessary to support the CI mission.
- Provide technical advice and assistance as it relates to CI and TSCM.
- Assist Certified TEMPEST Technical Authority (CTTA) with technical security plans, policy and execution; assess electronic processing equipment for security vulnerabilities.

E&M TECHNOLOGIES, INC.

854 Woodmoor Acres Dr.,
Monument, CO, 80132

Skills and Experience Required:

- The Practitioners (Level III's) must have a minimum of 7 years of CI experience, of which at least 3 of those years include TSCM experience.
- Shall have an Interagency Training Center (ITC) TSCM Certification and complete at least 40 hours of discipline-specific development or refresher training every fiscal year.
- Shall possess TSCM Cyber certification (TSCM Fundamentals graduation will suffice, with an expectation for "TSCM for Information Systems" (ITC) or equivalent)
- Shall possess Security + Certification and possess or obtain A+ and Network + certifications within the first 12 months of being on contract .
- Shall have telephone security experience (i.e. with Telephone Security Group (TSG) requirements).

Desired:

- Bachelor's degree in Computer Science, Engineering or a related technical discipline.
- Be a credentialed graduate of an accredited federal or DoD CI training academy (ex. FBI Academy, etc.).

E&M Technologies offers competitive salaries, medical benefits, and a 401k plan.
