

E&M TECHNOLOGIES, INC.

854 Woodmoor Acres Dr.,
Monument, CO, 80132

Job title: Information Assurance/Security Specialist - Senior

Location: Colorado Springs, CO

Security clearance Required: Secret; TS/SCI preferred

E&M is actively seeking an INFORMATION ASSURANCE/SECURITY SPECIALIST - SENIOR in support of the U.S. Air Force North American Aerospace Defense Command (NORAD) Cheyenne Mountain Complex Integrated Tactical Warning/Attack Assessment (NCOMC-ITW/AA) and Space Support Contract (NISSC).

Responsibilities:

Program Protection Specialists are responsible for the execution of the Information Assurance program at the Colorado Springs facility as stipulated by various USG requirements documents including but not limited to NISPOM, and associated NIST documents. The selected candidate will be responsible for day-to-day effective execution of the Information Assurance program to include (but not limited to):

- Carries out information systems security assessments and analysis. Analyze Risk Management Framework (RMF) Packages, including POA&M, Functional Architecture Diagrams, and Certifying Authority
- Applies knowledge and understanding of Information Assurance (IA) concepts, practices and procedures using established IC and Air Force policies and standards to minimize and/or mitigate RMF security risks. Review and comment on technical documentation to ensure compliance with security standards and regulations.
- Guide projects and programs through successful assessment and authorization of systems components for Authority to Operate (ATO).
- Provide IA and RMF services such as System Security Plans (SSP), risk assessment, audit policy, scanning policy, POA&AMs, HBSS implementation, Data interface CONOPS, COOP/DR, IA Cert Checks, and MOU/MOAs.
- Development, maintenance, and execution of effective, well written, and customer compliant IA policies, plan, and procedures
- The ideal candidate possesses strong written and oral communications skills, technical knowledge, exemplary customer service skills, strong time management skills, the ability to creatively find solutions to complex challenges, and the ability to multi-task and thrive in a fast-paced environment.

Required Skills:

- Must be a U.S. Citizen and in possession of a Secret clearance and have the ability to obtain and maintain a TS Security Clearance
- Past experience with management/maintenance of DIACAP security authorization packages and related artifacts, bodies of evidence (past RMF experience highly desired)

E&M TECHNOLOGIES, INC.

854 Woodmoor Acres Dr.,
Monument, CO, 80132

- Experience supporting various computer hardware platforms and multiple operating systems in both stand alone and LAN/WAN configurations
- Working knowledge of operating systems security features and settings (e.g. Windows, Unix, and Linux)
- Proven ability to make sound decisions and implement all aspects of information systems security as it applies to NISPOM Chapter 8, NIST SPs, and other government doctrine
- Professional demeanor, good interpersonal skills, and ability to excel in a high-paced multi-tasked environment
- Demonstrated ability to act independently, prioritize tasks, and manage to schedule
- Willingness to perform security tasks outside specialty (e.g. program security) and be proficient in Microsoft Applications (Word, Excel, Power Point, Access, Visio, etc.)
- Strong communication skills with the ability to communicate effectively in both oral and written modes, and be able to author and present subject specific presentations. Comfortable with public speaking.
- Must be willing and able to travel as required up to 10% of work schedule

Desired Skills:

- Experience with eMASS and/or XACTA.
- Experience with various information system security assessment/hardening tools – ACAS, DISA SRR, STIG's, etc.
- Current Top Secret clearance or SCI access
- Self-starter with ability to work with limited supervision, customer service orientated
- In-depth knowledge of NIST special publications, CNSS policies and instructions

Education Required:

- Bachelor's Degree in Computer Science, Information Systems, Information Assurance, Cyber Security
- or related field of study and 4 years of related experience;
- or Associate's Degree in related field and 6 additional years of related experience.
- Information Systems Security/Information Assurance, Security Engineering experience may be considered in lieu of bachelor's degree.

E&M Technologies offers competitive salaries, medical benefits, and a 401k plan.
