

**E&M TECHNOLOGIES, INC.**

854 Woodmoor Acres Dr.  
Monument, CO 80132

**Job Title: IT Consultant (Infrastructure)**

**Location: Charlottesville, VA**

**Security Clearance: TS/SCI**

**E&M Technologies** is currently seeking an **IT Consultant** to join our team in support of the Army INSCOM Global Intelligence NGIC Mission Systems Engineering II (NMSE II). The consultant will support the documentation, management, and maintenance of NGIC Mission Data Processing stakeholder requests to accommodate the processing of new data types being provided to NGIC and accommodate changes to the USG Biometric Enterprise.

**Position Requirements:**

**Minimum Experience:**

- 5 years of experience deriving and documenting military intelligence application requirements from multiple stakeholder organizations
- Understanding of DoD Intelligence processes, activities, standards, and available analytic tools
- Knowledge of and experience in planning and executing technical studies and reports for computer systems and computer networks
- Experience with Oracle, XML and JAVA.
- Experience with DoD Biometrics and/or Identity Intelligence (I2) Enterprise (s), including data formats (including EBTS, WatchML, TWPDES, and MatchML) and information sharing processes
- Experience and knowledge with Intelligence Enterprise data sharing processes, to include the use of Pub/Sub operations, webservices, and sFTP appliance use for data sharing
- Understanding of Intelligence Enterprise Infrastructure and security processes, including PKI in order to serve as Tier 1 customer service representative for BI2R system, including ability to diagnosis of BI2R system issues and the ability to aid the registration of new users and troubleshoot of access issues for existing users
- Strong verbal and written communication skills
- Ability to operate independently, or collaboratively across multiple functional areas
- COMPTIA Security+ certification

**Desired Skills:**

- 8-10 years IT experience supporting complex multi-tiered systems
- Experience in operational Biometric/Identity Intelligence data processing.
- Experience establishing and/or translating system architecture requirements
- Familiarity with information assurance compliance efforts
- Certified Information System Security Professional (CISSP) preferred

**Education:** Minimum Education: BS degree in Computer Science, Engineering, Physics, or Mathematics required OR 8 to 10 years of experience providing technical support services, mission engineering, and technology assessment to a complex government program.

**E&M TECHNOLOGIES, INC.**
