Monument, CO 80132

Job Title: Senior Database Developer

Location: Omaha, NE (OFFUTT)

Security Clearance: ACTIVE SECRET; Top Secret with SCI Eligibility Preferred

E&M Technologies is currently seeking a **Senior Database Developer** in Omaha, NE.

Responsibilities:

- Ensure the database is modified, maintained, secured and available to the frontend
- Update database architecture as required to support development of new capabilities outlined in requirements documents
- Update and document the database design baseline as new iterations of system are developed
- Support and maintain an Entity-Relationship (ER) model of the database schema
- Maintain a data dictionary describing each table and column in detail
- Define new tables and objects when necessary
- Participate in remediation of any data discrepancies within the user community
- Act as the data liaison between all interested parties for inconsistencies
- Provide the government reports detailing the discrepancy and remediation actions decided upon
- Provide database librarian/maintenance tasks and provide quality control to check for anomalies in the data that conflict with established business rules
- Design, implement, manage, backup and restore multiple database schemas

Position Requirements:

- Oracle Developer with Oracle 11g and PL/SQL experience; exposure to Oracle 12c is desired
- 12+ years of demonstrated relevant experience designing, developing, modifying and sustaining databases (Oracle) for database centric systems
- Erwin experience
- Database programming experience to develop a functioning backend that evolves to continually support a web-application frontend (.NET)
- Developing database models at the software and functional levels
- JavaScript experience (highly desired) or similar scripting

Desired Experience:

- Spatial database modeling and operations - integrating spatial databases with GIS applications such as ESRI

E&M Technologies offers competitive salaries, medical benefits, and a 401k plan.

To Apply for this Position:

You must have the listed skills and experience in your resume to be selected for an interview. Send your resume to emtech@eandmtech.com
