Job Title: CI Specialist – Research Analyst Analysis Support
Location: Ft Meade, MD
Security Clearance: TS/SCI

E&M Technologies is currently seeking a **Research Analyst Analysis Support and CI Specialist** to support a Federal government client.

Position Requirements:
- Apply intelligence collection systems and capabilities to inform intelligence consumers of collection developments and relevancy through a range of products
- Collaborate across the IC to understand customer intelligence needs and gaps to optimize developing and validating collection requirements for the customer
- Evaluate the efficiency and effectiveness of multi-INT collection against requirements; and the execution of collection plans and strategies to generate reliable and valid intelligence to customers
- Assess the value of collected intelligence versus the customers' need(s) and decision making. Use statistical, algorithmic, mining and visualization techniques to find and interpret ISR data sources
- Manage large amounts of data, ensure data consistency, produce visualizations and develop models to report findings
- Assist developing methods and criteria to evaluate whether collection requirements have been satisfied, using Measures of Effectiveness (MOEs), Measures of Performance (MOPs), responses to collection plans and strategies, and produce feedback of findings.
- Identify collection gaps, related trends, and opportunities; assess collection options, tests assumptions, and produce judgements, recommendations, and solutions to refine collection
- Identify gaps in collections methods, and model future intelligence collection scenarios for Collection Strategists, Intelligence Planners, and Collection Enterprise Architects
- Demonstrate proficiency conducting statistics using statistical packages such as, but not limited to, Matlab, SPSS, SAS, SPLUS, or R

Required Education/Experience
- Graduate of in-residence DoD/IC collection management course or Military Service equivalent
- High school diploma with at least 12 years of relevant experience; an associate degree with at least 10 years of relevant experience; a bachelor's degree with at least 8 years of relevant experience; or a master's degree with at least 6 years of relevant experience
- At least a portion of experience must be within the last 2 years

E&M Technologies offers competitive salaries, medical benefits, and 401k plan.

To Apply for this Position:
