

GSA PRICE LIST

SIN	SERVICE	MINIMUM EDUCATION/ CERTIFICATION LEVEL	MINIMUM YEARS OF EXPERIENCE	UNIT OF ISSUE (e.g. Hour, Task, Sq ft)	PRICE TO GSA (including IFF)
132-51	Program Manager/SME	BS	8	Hour	\$163.43
132-51	Information Specialist	BS	2	Hour	\$99.22
132-51	Subject Matter Expert	BS	5	Hour	\$79.50
132-51	Strategist	BS	8	Hour	\$70.77
132-51	Software Developer Senior Staff	BS	8	Hour	\$97.24
132-51	Software Developer Senior	BS	6	Hour	\$101.01
132-51	Systems Administrator	BS	5	Hour	\$93.26
132-51	Task Lead	BS	7	Hour	\$119.21
132-51	Security Analyst	BS	5	Hour	\$94.79

LABOR CATEGORY DESCRIPTION

<u>Proposed IT Labor Category Titles</u>	<u>Provide Specific IT Qualifications and Years of Experience</u>	<u>Provide Specific Educational Degree and/or Certification</u>
<u>Examples</u> v	<u>Examples</u> v	<u>Examples</u> v
Program Manager/SME	<i>Strong analytical and statistical skills; experience with programming languages; ability to use and manipulate data in large scale; great written and verbal skills; Bachelor's degree + 8 years experience</i>	<i>Bachelor's Degree in Computer Science, Engineering, Math or related discipline</i>
Information Specialist	Possesses and applies a comprehensive knowledge across key tasks and high impact assignments. Plans and leads major technology assignments. Evaluates performance results and recommends major changes affecting short-term project growth and success. Functions as a technical expert across multiple project assignments. Education/Experience: Bachelor's degree with a minimum ten (10) years of functional area experience; or Master's degree with a minimum eight (8) years of functional area experience; or PhD with a minimum six (6) years of functional area experience. May supervise others.	<i>Bachelor's degree in related discipline</i>
Subject Matter Expert (SME)	<i>Specialize in agile methodology, Development and Operations (DevOps) methodology; experience in Software Configuration Management (CM) practices using various CM tools; expert with various operating systems including windows, Unix and Linux; specialize in Service Oriented Architecture (SOA), knowledge of Simpler Object Access Protocol (SOAP) and RESTful based services</i>	<i>Bachelor's degree in related discipline</i>
Strategist	<i>Performs technical planning, systems integration, verification and validation, cost and risk, and supportability for effectiveness. Analyses performed on all levels of the total system to include concept, design, fabrication, test, installation, operation, maintenance and disposal. 14 years experience.</i>	<i>Bachelor's degree in related discipline</i>

Task Lead	<i>Specialized subject matter expertise in operating systems and related systems software for computer in large multi-user environment; the characteristics, capabilities and uses of operating system components and relates vendor supplies and software packages. 5 years experience</i>	
System Administrator	<i>Provide technical/management leadership on major tasks or technology assignments; domain and expert technical knowledge; Manages activities for a client, having overall responsibility for financial management, methods, and staffing to ensure that technical requirements are met</i>	<i>Bachelor's degree in related discipline</i>
Software Engineer Senior Staff	Plans, conducts, and coordinates software development activities. Designs, develops, documents, tests, and debugs software that contains logical and mathematical solutions to business/mission problems or questions in computer language for solutions by means of data processing equipment. Applies the appropriate standards, processes, procedures, and tools throughout the development life cycle. Applies knowledge of computer hardware and software, subject matter to be programmed in business/mission applications, information processing techniques used, and information gathered from system users to develop software. Corrects program errors, prepares operating instructions, compiles documentation of program development, and analyzes system capabilities to resolve questions of program intent, output requirements, input data acquisition, programming techniques, and controls. Ensures software standards are met.	<i>Bachelor's degree in related discipline</i>
