

E&M Technologies
4465 Northpark Drive, Suite 304
Colorado Springs, CO 80907

POSITION: Level 1 or 2 Test Engineer

Work Location: Chantilly, VA; be physically in SCIF during testing

Required Clearance: Top Secret/SCI

E&M Technologies, Inc. is currently seeking a **Level 1 or 2 Test Engineer** to support a Federal government client.

Successful candidate will provide software engineering expertise.

Roles and Responsibilities:

- Perform functional, system integration, exploratory, performance, smoke, and regression testing on the UI and API for a variety of capabilities.
- Test SOAP and REST APIs using SoapUI
- Update and maintain SoapUI projects that are used for testing
- Create, update, and review detailed manual test procedures that are delivered to the customer
- Work with developers and other members of the test team to develop the test procedure updates
- Conduct User Acceptance Testing (UAT) and Independent Verification and Validation (IV&V), executing and demonstrating test procedures in front of customer witnesses
- Work closely with other members of the test team to ensure team goals are reached
- Work with developers to identify and resolve discrepancies found during testing
- Maintain close collaboration with System Engineers to verify system functionality against requirements
- Update and review the Requirements Verification Traceability Matrix (RVTM)

Qualifications:

- Experience testing SOAP and REST APIs using SoapUI or a similar tool
- Experience creating, updating, and reviewing step-by-step test procedures
- Experience working with developers to identify and resolve discrepancies found during testing
- Experience working in a team environment and working independently, self-motivated
- Strong, effective, and professional communication (written/verbal) and interpersonal skills
- Strong organizational skills with attention to detail
- Experience with agile development methodologies
- Experience working with Linux
- Experience with test automation tool implementation such as Selenium and Cucumber
- Experience with maintaining test automation scripts

Required Certification:

- CompTIA Security+ Certification

E&M TECHNOLOGIES, INC.
