

E&M Technologies  
4465 Northpark Drive, Suite 304  
Colorado Springs, CO 80907

**POSITION:** SecDevOps Engineer

**Work Location:** Herndon, VA

**Required Clearance:** Top Secret preferred, Secret can be accepted

**E&M Technologies, Inc.** is currently seeking a **SecDevOps Engineer** to support a Federal government client.

Successful candidate will provide software engineering expertise.

**Roles and Responsibilities:**

- Manage and maintain the Red Hat Ansible Tower automation platform
- Design, create, and deliver playbooks that will enable support automation solutions at scale
- Administer Ansible infrastructure, perform maintenance and configuration and provide subject matter expertise level support
- Develop, configure, and administer SecDevOps and IT automation solutions
- Understand and simplify large complex enterprise systems
- Ensure services always remain available during automated deployments
- Provide technical support to IT ops around automation solution usage
- Coordinate with the Operations, Systems, and Development teams to identify improvements to the installation and deployment of the software baseline through Ansible

**Qualifications:**

- 4+ years of Hand-on Experience with Ansible and creating Ansible playbooks for the installation and deployment of COTS/FOSS, web applications, and containers
- Experience implementing a continuous integration (CI) / continuous development (CD) pipeline
- Very good analytical/problem solving skills
- Experience with AWS and virtualized platforms (VMware/Red Hat Linux),
- Intermediate scripting skills in Ruby, Python, PL/SQL, PowerShell, and/or Bash
- Expert level understanding and implementation of RESTful APIs
- Comfortable with frequent incremental code testing and deployment.
- Ability to adapt to a changing and dynamic environment.
- Experience working in an agile development environment
- Hands-on technical experience in at least one of the following areas: software development, software test automation, system administration/deployment.
- Understanding (or experience) with SecDevOps and CI/CD concepts and associated tools, including code build (e.g. Jenkins) and deployment automation (e.g. Ansible, Chef)
- Attention to detail, with ability to identify and resolve discrepancies in software versions, configuration, and component compatibility

**E&M TECHNOLOGIES, INC.**

E&M Technologies  
4465 Northpark Drive, Suite 304  
Colorado Springs, CO 80907

**Preferred Qualifications:**

- Experience tied to US IC/Department of Defense/Federal agency customers is a plus
- Experience with Atlassian stack (JIRA Confluence, Bitbucket) or comparable Agile management software
- Experience with git, subversion, or other source management tools

**Required Certification:**

- Security+ certification

**Required Education:**

- Bachelor's degree in related discipline

E&M Technologies offers competitive salaries, medical benefits, and a 401k plan.
