

E&M Technologies  
4465 Northpark Drive, Suite 304  
Colorado Springs, CO 80907

**POSITION:** Geospatial Analyst Senior  
**Work Location:** NGIC Charlottesville, VA  
**Required Clearance:** Top Secret/SCI

**E&M Technologies, Inc** is seeking a **Geospatial Analyst Senior** to support a Federal government client.

**Position Requirements:**

- Meets all qualifications and skills of a Mid Geospatial Analyst.
- Demonstrated experience with all-source intelligence processes, data evaluation, and analysis
- Demonstrated ability to manage research and coordination for long-term projects
- Demonstrated ability to conduct geospatial analysis of objects, networks, and persons using geospatial tools, methodologies, spatial-temporal data, imagery, social and physical sciences.
- Demonstrated ability to exploit imagery, vector, and other data to include non-geospatially correlated data to locate, identify, and map objects in the spatial domain.
- Demonstrated experience with intelligence analysis tools and databases
- Demonstrates in-depth knowledge of a wide range of National Level, DoD, DCI, DIA and DA Information Security Program and Foreign Disclosure concepts, principles, practices and procedures to review, analyze, and release classified and unclassified data in accordance with the National Disclosure Policy.
- Demonstrates in-depth knowledge of data transfer requirements for moving data between classified and unclassified computer systems.
- Demonstrates mastery of qualitative and quantitative analytic methodologies and pursue developments in academia or other fields that affect tradecraft methodology. Demonstrates ability to define comprehensive, new, or unique research approaches that enable rigorous assessments to address and contribute to high-level tasks.
- Demonstrates in-depth analysis of analytic operations and knowledge management issues across organizational and intra-IC boundaries and clearly articulates key findings.
- Demonstrates ability to work independently and with minimal oversight.
- Demonstrates ability to review analytic products for cogent arguments, tradecraft standards, and adequate support for conclusions; routinely tests analytic rigor of analytic products

**Required Experience:**

- Demonstrated ability producing reports for senior DoD decision makers.
- Demonstrated experience with the application of quantitative and qualitative analytic methods
- Detailed knowledge of NGIC, Army, DIA, NSA, CIA, and/or interagency operations
