Job Title: Open Source Research
Location: Ft Belvoir, VA
Security Clearance: TS/SCI
Language: Arabic, Russian, Farsi, Russian

E&M Technologies is currently seeking a **Open Source Research.**

Open Source Research products require knowledge of and experience with foreign languages with level 3+ or civilian equivalent (superior according to the American Council on the teaching of foreign languages). Contractor support requires Open Source Research support for the following languages: Arabic, Russian, Farsi, Dari, Pashto, Mandarin, Tagalog, and Somali. The Contractor must have the ability to surge based on mission requirements to add additional personnel supporting these languages.

Responsibilities:
- Conducts all-source in-depth link and social networks analysis using advanced social network analysis techniques.
- Assesses opportunities to disrupt or degrade networks as appropriate.
- Assesses information gaps and predicts areas of information that enhance the collection cycle, based on collection strategies and Requests for Information (RFI).
- Integrate into Information Operations
- Support the execution of applicable planning processes (Army, Joint, and Interagency)
- Perform analysis and research tasks
- Provide Open Source research and reporting
- Identify, obtain and maintain access to media sources requirement for open source research.
- Incorporate open source research
- Utilize tools, databases, and websites to collect and analyze data and information to include online videos, broadcasts, and social media platforms.
- Maintain proficiency on all tools, software, and databases in support of a myriad of missions.

Minimum Experience:
- Demonstrates comprehensive mission knowledge and skills that affirms completion of all developmental training and experiences for the labor category.
- Demonstrates the ability to communicate understanding from information that may be incomplete, indirect, highly complex, seemingly unrelated, and / or technically advanced.
- Demonstrates ability to structure analysis based on trends in reporting and a range of analytic perspectives from other analysts, organizations, and intelligence disciplines.
- Demonstrates ability to work independently with minimal oversight and direction.
- Demonstrates ability to collaborate and work with other IC members on information sharing, driving collection, and addressing analytic disputes and conflict resolution.
- Demonstrates ability to develop concise, insightful, and comprehensive products for defense intelligence.

- Demonstrates ability to lead teams in researching multifaceted or critical problems. Provides guidance in selecting, designing, and applying analytic methodologies. Uses argument evaluation and validated analytic methodologies to challenge differing perspectives.

Required Certification/Training:
- Army Information Operations Planner course – AIOPC
- MSD Software Tools – MSD Software

Desired Experience/Education:
- Desired Experience: At least 8 years of experience conducting analysis relevant to the specific labor category with at least a portion of the experience within the last 2 years.
- Desired Education: Bachelor's degree in an area related to the labor category from a college or university accredited by an agency recognized by the U.S. Department of Education.

E&M Technologies offers competitive salaries, medical benefits, and a 401k plan.
