

E&M TECHNOLOGIES, INC.

854 Woodmoor Acres Dr.
Monument, CO 80132

Job Title: Geospatial Analyst

Location: Ft Belvoir, VA

Security Clearance: TS/SCI

E&M Technologies is currently seeking a **Geospatial Analyst**.

Responsibilities:

- Conducts geospatial analysis of objects, networks, and persons using geospatial tools, methodologies, spatial-temporal data, imagery, social and physical sciences.
- Exploits imagery, vector, and other data types to include non-geospatially correlated data to locate, identify, and map objects in the spatial domain.
- Provides analysis on, but is not limited to, terrain mapping, route planning, and maritime geospatial activity.
- Intelligence Preparation of the Information Environment, Combined Information Overlay, media mapping, radio frequency propagation, briefings to support working groups, training, conferences, and seminars (or other events), and other products or briefs requested by the Government.
- Utilize designated tools, software, databases, and applications and be fully conversant with current Intelligence Community databases/research tools and practices.
- Utilize data search tools resident on the commercial Internet and in hardcopy form in libraries, archives, and other information repositories.
- Utilize research tools and analytic methodologies recognized by the intelligence and geospatial communities

Minimum Experience:

- Demonstrates comprehensive mission knowledge and skills that affirms completion of all developmental training and experiences for the labor category.
- Demonstrates the ability to communicate understanding from information that may be incomplete, indirect, highly complex, seemingly unrelated, and / or technically advanced.
- Demonstrates ability to structure analysis based on trends in reporting and a range of analytic perspectives from other analysts, organizations, and intelligence disciplines.
- Demonstrates ability to work independently with minimal oversight and direction.
- Demonstrates ability to collaborate and work with other IC members on information sharing, driving collection, and addressing analytic disputes and conflict resolution.
- Demonstrates ability to develop concise, insightful, and comprehensive products for defense intelligence.
- Demonstrates ability to lead teams in researching multifaceted or critical problems. Provides guidance in selecting, designing, and applying analytic methodologies. Uses argument evaluation and validated analytic methodologies to challenge differing perspectives.
- 3 years of proven Geospatial work experience/training

Required Training/Certification:

- Army Information Operations Planner course - AIOPC

E&M TECHNOLOGIES, INC.
