E&M Technologies
4465 Northpark Drive, Suite 304
Colorado Springs, CO 80907

Position: System Administrator
Work Location: Colorado Springs, CO
Required Clearance: Top Secret; TS/SCI preferred

E&M Technologies, Inc is seeking a System Administrator to provide world-class IT services and support that connects systems and users across NORAD in the areas of network services, cyber security, systems administration, software development/maintenance, and other mission-critical areas. E&M Technologies offers competitive salaries, medical benefits, and 401k plan.

Position Requirements:
- Serve as NISSC II SME and advisor on all matters related to CFP processes and mission systems status
- Serve as a coordination point for CMAFS mission partners and customers
- Must possess technically advanced problem-solving skills
- Coordinate and administer the test and installation of network connections
- Configure and debug network equipment
- Provide server, workstation, and system expertise including on-site and off-site travel
- Develop and implement system documentation and operation procedures
- Prepare, submit, and brief daily, weekly, and monthly metrics and status reports
- Coordinate and schedule system upgrades and maintenance

Required Experience:
- Knowledge and system administration of Microsoft Windows operating systems (OS) administration and hardware
- Knowledge of Local Area Network (LAN) and Wide Area Network (WAN) technologies
- Experience with client peripherals including PCs, blades, KVMs, monitors, card readers, printers, and multi-function devices

Preferred Qualifications:
- Demonstrated experience interfacing with senior Air Force and/or DoD customers, as well as experience serving multiple DoD Agencies
- Remedy trouble ticket experience and skills
- Working Cyber and Space Operations experience desired
- Experience with Air Force Communications Focal Point (CFP) applications, communications, infrastructure, processes, procedures, instructions, and Task Orders desired

Required Education/Certification:
- Current Security+CE

- Requires a degree in Science, Technology, Engineering or Mathematics (STEM) or related field of study and 4 years or the combined equivalent of education and technical experience

To Apply for this Position:
You must have the Required Qualifications in your resume to be selected as a candidate.
