Job Title: Cyber Security Engineer
Location: Charlottesville, VA
Security Clearance: TS/SCI

E&M Technologies is currently seeking a **Cyber Security Engineer** to join our team in supporting our DoD Customer with Mission Systems Engineering. The Cyber Security Engineer will provide cybersecurity engineering, systems architecture, and certification and accreditation (C&A) support to ensure that all missions remain certified and accredited and satisfy all cybersecurity requirements. The Cyber Security Engineer will also conduct hands-on evaluations of technical configurations on diverse technologies such as network devices, operating systems, and platforms supporting virtualization, database, web, and applications in the environment and in the cloud.

Required Experience:

- Ten years of experience in cybersecurity field
- Minimum of two years' experience in achieving cybersecurity certification and accreditation
- Security+ certification
- Familiarity with DoD and Army Cybersecurity policies and instructions
- Proven ability to participate in the analysis of IT and business issues
- Strong written and verbal communications skills
- Ability to operate independently and collaboratively across multiple functional areas

Desired Experience:

- CISSP certification
- Experience with accreditations of large enclave networks and stand-alone systems using the Risk Management Framework (RMF)
- Experience with Enterprise Mission Assurance Support Service (eMASS) and Assured Compliance Assessment Solution (ACAS)
- Familiarity with the Ports, Protocols and Services Management (PPSM) program
- Familiarity with the Army Portfolio Management Solution (APMS)
- Familiarity with DISA STIGs and the IAVM program

Education: Minimum Education: Bachelor's degree in technology related field.

E&M Technologies offers competitive salaries, medical benefits, and a 401k plan.

To Apply for this Position:
You must have the listed skills and experience in your resume to be selected for an interview. Send your resume to emtech@eandmtech.com
