Required Qualifications:

- Ten (10) years of full-time professional experience in one or more of the following fields: Software development; Computer Networks; Systems Engineering with an emphasis on software development and integration.
- Demonstrated experience managing DOD software projects from cradle to grave
- Demonstrated experience successfully leading a team in a local and/or geographically dispersed environment
- Demonstrated experience developing software using multiple management disciplines, including the Agile framework
- Demonstrated experience with Unity or other modern 3D game development engine
- Demonstrated experience managing software version control and/or software source code base management
- Demonstrated experience with DoD training systems and training tool development
- Demonstrated experience leading requirements generation events

Desired Experience:

- Demonstrated experience with software emulation of Navy Combat Systems
- Demonstrated experience with Learning Management Systems and their architectures
- Demonstrated experience with Navy or DoD engineering or software development
- Demonstrated experience in DoD Contract and/or Program Management

Required Experience/Education:

- Masters' or Bachelor's level degree in any technical or managerial discipline
- PMP Certification

To Apply for this Position:
